

Investment Options

Please target my investment to one or more of the following Tri-State region initiatives. (if you make more than one selection, your gift will be split evenly among your choices. There is a minimum of \$24 per selection.):

- Education** — I want to help our children and youth achieve their potential in school and in life.
- Income** — I want to enable families to move towards financial independence and start saving for college, a home or retirement.
- Health** — I want to improve the health of children and adults in our community.
- All of the above** — I want my investment to improve the Education, Income and Health of our community.

Visit liveunitedtristate.org to find out more

I want to designate my gift to a specific initiative, local United Way or other 501(c)(3) agency.

If you select an agency that is not a United Way partner, it must be non-profit with 501(c)(3) tax status and provide health and human care services. Agencies which are not partners with United Way are not monitored by United Way. (If you make more than one selection, your contribution will be split evenly among your choices. There is a minimum of \$24 per selection.) Please refer to liveunitedtristate.org or call 1-800-255-0418 for the local United Way or agency code.

Code

--	--	--	--	--	--

Name of United Way or Agency

Address (required)

City (required)

State (required)

Zip (required)

Telephone

There are, of course, costs associated with processing designated contributions, which may mean a fee is deducted. Please contact your United Way representative for further information.

I do not wish to receive an acknowledgement of my gift.

If you contribute \$250 or more by any method other than payroll deduction, you will receive a tax acknowledgment letter from United Way at the beginning of the year. If you use payroll deduction, you will only receive a tax acknowledgment letter if your per-paycheck donation is \$250 or more, otherwise your year-end pay stub will reflect your total donation and serve as documentation in accordance with IRS regulations.

Credit Card Security Code

The card security code (CSC) is a 3- or 4-digit number printed on your card, rather than stamped in the plastic like the digits in your credit card number. The security code is not part of the credit card number. The CSC is a tool to prevent any fraudulent charges using your credit card, i.e. no one can pick up an old receipt of yours and use that information to fraudulently use your credit card because the CSC does not appear on receipts or statements. For American Express, the 4-digit number is printed on the front of the card, above and to the right of the embossed account number. On most cards, the CSC is printed on the back of the card (usually on the signature field). All or part of the card number appears before the CSC.

*We invite you to be a part of the change.
